RE: Mosquito Control Information

Please be reminded that frequent rain events, standing water, low lying areas, tall grass & weeds are favorable conditions for mosquito breeding.

It is the property owners' responsibility to remove and/or repair any objects holding water such as old tires, yard debris and plugged rain gutters, etc. as they are potential mosquito breeding sites.

For more information visit jamestownnd.org, click on Departments/Vector Control or phone 701.320.5503 between the hours of 7:00 am to 3:30 pm, Monday – Friday.
